

Maura Langelier

General Accountant

"I can see, through my nieces and nephews, that the education system isn't working for everybody. It's important to focus on the students and how they learn, because if they're not interested, they're going to get bored and drop out."

Maura Langelier joined the Nellie Mae Education Foundation in 2004.

Previously, Maura was a Senior Staff Accountant at Industrial Heat Treating, Inc. Prior to her work there, she served as a Staff Accountant at the Flatley Company in Braintree, Massachusetts. Maura has worked extensively in both accounts receivable and payable, managing and maintaining payroll, general ledger, and monthly and yearly closings.

Maura attended Newbury College in Brookline, Massachusetts.
